MIDDLE-AGED MEN
There are many at the age of thirty and
sixty who are troubled with too frequent
evacuations of the bladder, often accom-
panied by a slight smarting, or burning
sensation and a weakening of the system
in a manner the patient cannot account
for. On examining the urinary deposits a
ropy sediment will often be found, and
some small particles of albumen will ap-
pear, or the color will be of a thin milky
hue, again changing to a dark and torpid
appearance. There are many men who
die of this difficulty, ignorant of the cause,
which is the second stage of seminal
weakness. Dr. S. will guarantee a perfect
cure in all such cases, and a healthy
restoration of the genital-urinary organs.

NOVEMBER'S METEORS.

This is an interesting season of the year for astronomers. There have been a number of November meteoric displays, which have been among the most remarkable phenomena ever seen on the globe. The *Scientific American* makes a summary of the most remarkable instances:

In the year 559, on the last day of Moharrum, stars shot hither and thither, and few against each other like a swarm of locusts; this phenomenon lasted until daybreak; people were thrown into consternation, and made supplication to the Most High; there was never like seen except on the coming of the messenger of God, on whom be benediction and peace. In 1799 Humboldt, then traveling in the Andes, saw before sunrise thousands of meteors in the space of four hours, leaving a track behind them from five to ten degrees in length, many of them having a nucleus as bright as Jupiter. In 1833 there was a shower marked by grandeur and sublimity. The meteors passed over the heavens like flakes of snow, and, according to Arago's estimation, two hundred and forty thousand of them fell in three hours, as seen from his place of observation. In 1866 the latest shower was seen in Europe, and a portion of it was seen in America in 1867. The next shower is due in 1892, and is eagerly anticipated in the hope that it will confirm several theories based upon present and previous observation.

EDITORIAL NOTE.

It is reported that a Dr. Freire has successfully inoculated five persons with yellow fever germs, and the people so treated had the disease, but mildly. The germs were "attenuated" by frequent transplantation in gelatine. And yet it cannot be determined whether the inoculated are proof against further attack, and this can only be learned by observation and experience. A New York paper, growing jubilant over this discovery, asks whether consumption could not be similarly treated, and prophesies that the day is not far distant when contagious diseases will lose for suffering humanity much of their terror.

Truth says: It would seem, according to all reports, that the time has arrived for Nevada to plant the red flag on one of her lofty peaks, and ring the bell for an auction. Her population is now down to 60,000, and decreasing at a rapid rate. Her citizens are beginning to make fire-wood of the large and costly buildings erected at Gold Hill and Virginia City. We move an amendment to the constitution that will enable Hon. James G. Fair to possess himself at cost price of so much of the State as is not already under his control.

TELEGRAPHIC REVIEWS.

—Governor Stoneman will not call an extra session of the Legislature.
 —The American Bishops at Rome are discussing questions connected with the discipline of the clergy.

—About 50 of the war veterans of the New York Seventh Regiment met Wednesday evening at the armory to arrange for the reception of those who were among the 600 who went to the war on the organization of the regiment. Among those present were Generals Nugent, Fitzgerald, Newton, Porter, Durjoy, Mollins, Foster, Tremaine, Jardine, Nicklissen, Wright and Pierson. A dinner has been arranged for the 24th.

EASTERN DISPATCHES.

(PRESS DISPATCHES TO THE GAZETTE.)

Loss to Shipping.
 New York, November 17.
 A private telegram received here yesterday by certain vessel owners, gives the following report: The schooner *Norman* is ashore on Hog Island reef, full of water, and probably will go to pieces. The schooner *Flying Mist* was sighted off Frankfort, Mich., in a leaking condition, and will probably go to the bottom before a tug can reach her. The schooner *Regulator* is ashore south of St. Joseph, Mich., and will probably be a total wreck. The propeller *Anon* of the Union Steamboat Line, is ashore near Buffalo, on Sandy Beach, loaded with sundries for Chicago, valued at \$10,000; insured. Private dispatches also confirm the previous report of the loss of the schooner *E. Fitzgerald*, with all on board.

A Railroad War Threatened.
 Chicago, November 17.
 Commissioner Midgely to-day received notice of the withdrawal of the Chicago, Milwaukee & St. Paul Company from the Iowa Trunk Line Association. The only explanation offered is they are not satisfied with the arrangements of outsiders. They say this action will precipitate a rate war and that inside of 60 days things will be lively between here and Council Bluffs.

A Reduction in Wages.
 Reading Pa., November 17.
 Owing to the continued decline in iron, the Pottstown Iron Company at Pottstown, employing several hundred hands, have announced a reduction in wages of ten per cent., beginning December 1st. Other mills in Schuylkill valley contemplate a similar action.

A Lawless Band of Cranks.
 Romney, Ind., November 17.
 At midnight a band of citizens masked, and went to the drug store of C. C. Sutton, bound him, then destroyed his stock, and totally wrecked the building. Sutton sold whisky, and the destruction of his property was made on that account.

FOREIGN DISPATCHES.

(PRESS DISPATCHES TO THE GAZETTE.)

Moving Cautiously.

PARIS, November 17.
 A number of the Chamber of Deputies states that Admiral Courbet's position in Tonquin is critical, and Admiral Peyron, Minister of Marine, proposes to defend him by blocking Canton; but this would involve sending a formal notification to maritime powers, and therefore a declaration of war against China, a measure from which the Chamber shrinks.

De Lesseps' Frontiers.
 Manchester, November 17.
 The City Council and Chamber of Commerce presented an address to De Lesseps to-day. In response, De

Lesseps stated that a conference of engineers will be held in Paris shortly, at which time will be considered the proposition in reference to a canal; he also promised that the conference would consider the question of canal dues.

De Lesseps' Opinion.
 Liverpool, November 17.
 In an address De Lesseps said the second canal across the Isthmus of Suez could only be constructed alongside the present one with a liberal margin intervening for the strength of each. One of the canals could then be used for ships bound to, and the other for ships returning from the Red Sea. This was the only solution to the present difficulty.

Trouble Fended.
 Vienna, November 17.
 The projected journey of the Crown Prince begins to cause uneasiness here. It has not been forgotten that the Spanish quarrel led to war in 1870. It is feared that King Alfonso has not enough hold on the people to secure the Crown Prince from insult, which would upset the work of years and terminate all assurances of peace.

Europe Uneasy.
 London, November 17.
 A Times Paris dispatch says: The collective arbitration of powers most interested must prevent a war between France and China. Europe will be delighted to learn that they have accepted the arbitration of England, Russia and America.

China's Willingness.
 London, November 17.
 It is learned that the government of China is manifesting a willingness to accept English mediation. Prime Minister Ferry has notified the French Ambassador to England that he will inform him shortly of the conditions that France will accept.

An Anti-German Demonstration.
 London, November 17.
 It is stated that French communists at Barcelona, after vainly endeavoring to induce Catalan workmen to join them in their anti-German demonstration upon the arrival of the Crown Prince, threaten to carry the scheme into effect themselves.

Caused From the Effects of Typhoid Fever.
 Paris, November 17.
 Physicians who have examined young Curran, who endeavored to shoot Prime Minister Ferry yesterday, state that he is suffering from an attack of typhoid fever. He does not belong to any anarchist society.

Spain Will Reserve Her Energies.
 Madrid, November 17.
 Marshal Serran, the recently appointed Spanish Ambassador to France, in an interview with the French Ambassador at Madrid, said that Spain was not menaced by any foreign state, and should reserve all her energies for home reforms.

The Situation Unchanged.
 Paris, November 17.
 Official advice from Tonquin states that the military situation is unchanged. Admiral Courbet will remain within his lines if the result of the attack upon Sontay and Bacinh appears doubtful.

A Heavy Storm.
 Halifax, November 17.
 A heavy northeast storm commenced early yesterday morning, and prevailed nearly all day, snow drifting in some places four and five feet high.

WESTERN DISPATCHES

(PRESS DISPATCHES TO THE GAZETTE.)

Taking Steps to Enforce the Restriction Act.
 San Francisco, November 17.
 At a meeting last night of the State Council of the Union Veterans of the Democratic Legion, resolutions were adopted, calling the attention of the people of the Pacific coast to the recent judicial Chinese decision, and of the desirability of hedging the Chinese Restriction Act, with a commissioner whose duty it shall be to see that the Act is properly and legally enforced.

Guilt of First Degree Murder.
 A. J. Majors of San Jose, who has been on trial in Oakland, charged with being one of the party who robbed and murdered the Frenchman, Renowden, near Los Gatos, has been convicted of murder in the first degree. The death penalty will be pronounced on the 24th inst.

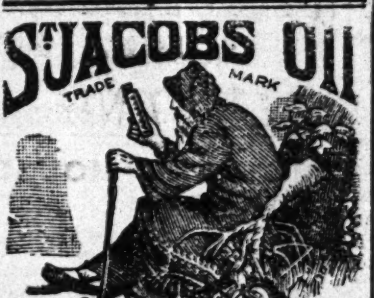

More Yellow Fever.
 The Guaymas dispatches announce that yellow fever has broken out anew in Hermosillo and Atlanta.

Details of a Horrible Murder.
 An Examiner special from Socorro, N. M., gives the details of the terrible shooting scrape for which Josh H. Fowler and John Barnes were arrested. Fowler was already bound over for the murder of Cole last week.

The second warrant was served on him and Barnes for the murder of "Butcher-knife Bill" and "Pony" Deal of the Alamo ranch on September 15th, yesterday. Barnes, who is but 19 years old, confessed to the murders; also that he helped rob the Clifton stage last May. He said he and Fowler went to Lippard & Bourbon's

ranch to kill the two ranchers, but were prevented. While in that vicinity they heard that Butcher-knife Bill and Pony Deal had been inquiring for them, and they hunted them up. When they met, Bill asked Barnes for a chew of tobacco, and as Barnes put his hand in his pocket to get it, Fowler, standing behind, poured a load of buckshot in Bill's breast. Pony jumped and ran, followed by Fowler, who shot him, but not killing him. Pony managed to get inside of the house, owned by McGee. Barnes, who had waited behind, seeing Bill attempt to rise, sent another shot through his head. The two men then laid siege to the house for Pony. While at work, McGee, the owner, came up. Fowler said he would give him \$500 if he would get Pony out. McGee broke in the door, and was shot dead by Pony. The house was then set on fire, and the next morning the charred remains of Pony were taken out.

The "Post" Opinion.
 This evening's Post, in reproducing a fac simile of the alleged Sharon-Hill marriage contract, advances the theory that the signature was genuine, but that the document was forged over the signature.

PERSONALS.

Jake Lewis is registered at the Palace. Thos. Farley is in Long Valley. Captain J. B. Overton spent the night in Reno.

Master of Transportation Ardery of the V. & T. was here this morning.

Gordon A. Rice, one of Reno's young men, who went to Honolulu a few months ago, returned home this morning.

Frank Bell, Warden of the prison, and his wife and children, came down from Carson last evening to spend a day or two with Reno friends.

J. M. Cassin, passenger conductor on the run between Wells and Ogden, was a dead-head below this morning. He is going down for a few days' vacation at the Bay.

N. A. Hummel, formerly connected with the Virginia Enterprise and Chronicle, but now teaching the Wadsworth public school, is visiting Reno friends to-day.

The Holmes Company's Expert. Prof. Raymond, the New York expert, now in Carson in the interest of the Holmes Company is a good witness for the Holmes folks, and seems to be fully acquainted with the subject. He was on the stand all day yesterday. His testimony was very interesting. Hon. Thomas Wren consumed four or five minutes in asking questions that Prof. Raymond would answer fully in ten words. Mr. Wren would hand him pieces of rock of different kinds ranging from the commonest piece of lime stone to the richest quartz, and ask him what it was. Mr. Raymond would test the sample with a little acid and in half a minute tell the Court what it was. Prof. Raymond will probably finish his testimony to-day.

Arm Broken. Mrs. D. D. Bowen slipped and fell this morning, breaking her right arm above the wrist.

ABOUT TOWN.

A Few Jots Interesting to the Public.

The will of Kate Townsend, killed in a disreputable house in New Orleans, by Troisville (or Treville) Sykes, last Saturday week, bequeaths all her property to her murderer. The estate is valued at \$543,000. The crime of Sykes disqualifies him from inheriting the bequest, which, under the law of Louisiana, ought to go to the State. To drown his disappointment he has sent to George Becker for 25 kegs of his celebrated Pacific beer.

They have an extraordinary police force in Troy. A man was attacked at night, stunned, carried a quarter of a mile and then robbed of his watch and chain, money and diamond pin, hat, clothes and shoes. The police recovered the shoes. That is not a "Nevada method."

A Cincinnati street car company has just given 11 conductors, who have acted as such for one year, \$100 each as a reward for faithful and efficient services, in accordance with a contract made between them and the company. As soon as the boys got the money they each sent an order to Abraham Brothers for one of the White House overcoats.

Fifteen years ago an Alabama man murdered a peddler. Ever since that time his wife has held the crime over him as a whip, obliging him to split all the wood, build the fires and rock the baby. Rendered desperate by her treatment, he has given himself up to be hanged.

A cyclone which recently swept through a streak of timber in Michigan gathered up several cords of wood, carried it six miles over a prairie and deposited it on the premises of a poor widow. She immediately sent to Knowles & Bainbridge for a Westlake range.

A divorce was secured in Chicago last week in 40 minutes. The petition was filed at 9:45 A. M.; the defendant waived all formalities; the case was called for hearing at 10 o'clock, and at 10:25 the decree was granted. At 11 the happy grass widow, being her own boss, ordered one of Levy Bros' elegant dress patterns.

"Accused," said the president of the tribunal, "you have heard the report of the medical experts that the body contained a quantity of arsenic sufficient to kill eight persons; what have you to say about it?" "All I have to say, sir, is that I do not regret giving him the dose. If he had done as I wanted him to, and bought my groceries of A. Lindley & Co. it would never have happened."

A Mrs. Scott has secured a divorce from her husband on account of a quarrel, which began in her husband's inability to buy her a seal-skin sash. If he had bought his groceries at J. K. Everett's, corner of Second and Sierra streets, she would not have asked for a seal skin.

Nasby is making new friends every day. His elegant stock of holiday goods is one reason, and his attention to business is another. Go and examine his goods, even if you do not care to purchase.

Three members of the Salvation Army were arrested in Brooklyn on Saturday night for singing and holding religious services on the steps of the City Hall. It is a sure thing that they did not buy their liquor of Chislovich & Co. If they had done so, they would not have disturbed any one's peace; their liquors are too pure.

Carson is reaping a harvest just now. The Holmes-Northern Belle suit has filled the town with strangers, and there seems to be an organized effort on the part of the good people of the capital to make a good clean-up. They work their bonanza systematically—Jim Townsend's astrakhan could not do it better. One saloon has a black-eyed girl to deal keno for the boys, while a well-known Carsonite distributes the cards and beans. At another saloon keno, faro, stud-horse, and, in fact, any game you wish to tackle, runs in full blast. The red lights on the back streets are trimmed up to guide the lawyers, experts and hangers-on to the gilded palaces of sin. Every saloon sets a hot lunch daily, and taking it all in all, Carson is happy.

The Anonymous Scandal Mongers. Within the past week a number of scurrilous anonymous letters have been distributed throughout Virginia under people's doors and through the mail. The Chronicle says the majority of them were evidently written by one person, and the handwriting is that of a woman. Such vile work as this seldom does any harm except the miserable creature who resorts to such methods of venting their spleen.

A Dizzy Fall. A carpenter at work on the C. P. shops at Wadsworth fell from a 25-foot scaffolding last evening. He landed upon his feet, and miraculously escaped without breaking any bones. Dr. Bergman was called to Wadsworth, but when he arrived there he found the man all right, with the exception of a few severe bruises.

Marketing His Produce. Was Nuts is in from Long Valley. He came in with a load of chickens for the Virginia market. He realized \$3.75 cents per dozen. He will be in next week with a lot of hops.

IT WILL HAPPEN.

A Continuation of the Names of Washoe Officials.

In a hasty review of county matters yesterday, mention of the efficient manner in which the county Assessor's office has been managed, was omitted. It is needless to say that it was entirely unintentional, as C. H. Stoddard is an excellent officer, and appreciated by everybody. The fact is that Mr. Linn is sick, and yesterday Mr. Bragg went to Carson, leaving all the work to be done by one man, and not a very good man either, so the paper suffered somewhat.

D. Allen, County Superintendent, was also left out. Mr. Allen is proving himself a very valuable officer in the educational department, and under his watchful care the public schools throughout the county are in a very prosperous condition. Never before in the history of this county have the schools of this district been up to their present standard of excellence.

Mr. Allen has been a valuable officer in assisting to successfully carry out the reorganization of the system inaugurated by Rev. Mr. Jenvy and the Board of Trustees. Reno can truthfully boast of having one of the best public schools on the coast. Prof. Foster and his corps of excellent assistants are establishing a reputation for the school of which every educationist should feel proud.

A Dissatisfied Wife. A Reno husband was closely questioned by his wife the other night. The old lodge rack-st had worn through, so he tried to make all things even by telling her that he spent the evening at a church entertainment, but when she found three trays and a pair of axes in his coat pocket the next morning, she told him life was a lie the whole way through, and as he had been doing nothing but playing poker and lying to her for five years, she guessed she would leave him and go to her father.

Wadsworth School Report. Report of Wadsworth school for month ending November 10, 1883. Number of girls enrolled, 22; number of boys enrolled, 35; total, 55; average number belonging, 53; average attendance, 49; percentage of attendance, 92. Following is the roll of honor: Maud Johnson, Thomas Smith, Lottie Gladding, George Watson, Jessie McPherson, Roy Lewis, Walter McPherson, Eddie Gladding.

N. A. HAMMEL, teacher.

A Card. William Plummer renders his best thanks to his numerous friends, and the public generally, for the very liberal support accorded him in the past, and he begs to inform them that he has again accepted a co-partnership with R. E. Queen, at the old stand, and respectfully invites a continuance of their patronage. The new firm have added largely to their stock of drugs, chemicals, patent medicines, wines and liquors for medicinal purposes; toilet and fancy articles, etc. In the dispensing departments they make a specialty of physicians' prescriptions and family recipes, bringing to their already large stock the latest achievements of scientific pharmacy, and are prompt in filling all orders entrusted to them.

PINNIGER & QUEEN. Note the address—West side Virginia street, Reno.

A Good Officer. Warden Bell informs the GAZETTE that everything at the prison is going on satisfactorily. He is manufacturing about \$2,500 worth of boots and shoes monthly and finds a market for all he can make. He says he has not had to punish a convict for seven weeks now. Mr. Bell has proven himself a splendid officer, and thus far the people have had no occasion to regret having selected him for that important trust.

Another Branch to a Thrifty Tree. The Truckee Lumber Company will begin next week the construction of an ice house at their mill just above Truckee. The building will have a capacity of 6,000 tons. The ice will be made on their mill pond—a dammed branch of the Truckee river. The weather at that point is intensely cold, making it one of the best locations for the manufacture of ice in the mountains.

Increased Mail Service. The people living in Sierra valley want an increased mail service; they now have a tri-weekly. Sierra valley is fast filling up with a prosperous and live people, and should be provided with a mail service sufficient to accommodate the fast-incoming business.

The Sheep Market. J. B. Talbot, a well-known sheep man, is in town to-day. He says that the old sheep men are not carrying in as many sheep this winter as formerly, but that the flocks, to some extent, have got into new hands. He says there will be about 40,000 head wintered here.

Headquarters of the Green Mountain Boys. BURLINGTON, Vt.—L. S. Drew, the popular landlord of the American Hotel, certifies to the wonderful curative qualities of the world-renowned St. Jacobs Oil.

Lost a Finger. M. A. Moffit, a C. P. brakeman, smashed the third finger of his right hand this morning while coupling cars. Dr. Bergman amputated it at the knuckle joint.

STOREY'S TREASURY.

A Very Cowardly Way of Doing Business. Several prominent Storey county tax-payers demand that the County Commissioners declare the office of the County Treasurer vacant, on the ground that the ten days have elapsed, in which Nevins had to file a new bond. The Enterprise says: This, in our opinion is a very cowardly and nibbling way of doing things. Either at once come squarely out and arrest Dennis Nevins as the man who robbed his own office, or let Dennis Nevins stand before his fellow men as a man. This is the square business without any nibbling. Let the powers that be, who have been investigating this business, and who by this time are supposed to have found out about all there is to know, come out and say that they don't know anything, or quit dragging in the dirt a county officer who is supposed to be a gentleman and an honest man until proved otherwise. Let him do his business on his own hook or kick him out. Who ever heard of a man, a county or any one of thing doing business as our county business is now being done?

Pyramid. The miners at Pyramid are enlarging and timbering the upraise. This work will require about two weeks' time; and after its completion work of prospecting and taking out ore will be begun. The old shaft is in very good condition, and as soon as the water is drained off, a day or two of work will make it as good as new.

The Verdi Dance. Quite a number intend going to Verdi next week to attend the ball to be given by the Verdi Lodge of A. O. U. W. The Verdi people are making extensive preparations to entertain their guests.

Sent to Quentin. G. W. Raines received a postal card this morning saying that the man Charley Burns, who recently stole one of his horses, had been convicted and sent to Quentin.

AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifling with the majority of sufferers. The ordinary cough of cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.
"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctor gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 61 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me."
HORACE FAIRBROTHER,
Rockingham, Vt., July 15, 1882.

Group.—A Mother's Tribute.
"While in the country last winter my little boy, three years old, was taken ill with croup. It seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing freely. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude?"
MRS. EMMA GEDNEY,
120 West 129th St., New York, May 16, 1882.

"I have used AYER'S CHERRY PECTORAL in my family for several years, and have been able to pronounce it the most effective remedy for coughs and colds we have ever tried."
L. A. CHANEY,
Lake Crystal, Minn., March 1, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL. I have since used it in my family, and it has cured many of our children."
JOSEPH WALDEN,
Byram, Miss., April 5, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from the troubles of my lungs."
J. C. WALDEN,
Palestine, Texas, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will always cure when the disease is not already beyond the control of medicine.
